Ottawa

This first instalment of the eleventh edition of the "Annual Supplement to the Canadian Statistical Review" covers 78 of the 93 selected economic indicators appearing in Section 1 of the Review. It contains the monthly and quarterly historical records, unadjusted and adjusted for seasonality. Further instalments will be issued as revision programs for the series are completed. All pages should be released by early 1973.

The pages and the series are arranged in the same order as they appear in the "Review". Thus T-2-1 signifies that the series contained therein is the first one in Table 2. This edition supersedes all previous editions, the last of which was published in October 1971.

The unadjusted and adjusted data are the latest revised figures published and extend to December 1971; they may be kept up-dated by referring to current issues of the "Review". Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the "Weekly Supplement of the Canadian Statistical Review" (Catalogue No. 11-004). They should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in Section 1 of the Review, and have at all times the entire postwar record.

On the following pages are revisions to unadjusted and/or seasonally adjusted series. For most series, revisions to seasonally adjusted figures reflect the incorporation of current data. For exports and imports, adjustments have been made to eliminate minor statistical discrepancies between the sum of the seasonally adjusted components and published totals, and between the annual sum of seasonally adjusted monthly data and published raw data.

Cette première partie de la onzième édition du "Supplément annuel de la Revue statistique du Canada" vise 78 des 93 indicateurs économiques figurant dans la Section 1 de la Revue. Elle comprend des données chronologiques mensuelles et trimestrielles, corrigées et non corrigées des variations saisonnières. D'autres parties seront publiées, à mesure que des révisions des séries seront terminées. La dernière tranche devrait paraître au début de 1973.

La disposition des pages et des séries est la même que dans la Revue. Ainsi, T-2-1 signifie qu'il s'agit de la première série du Tableau 2. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en octobre 1971.

Les données désaisonnalisées et non désaisonnalisées représentent les chiffres rectifiés les plus récents et s'étendent jusqu'à décembre 1971; on peut les mettre à jour en se reportant aux derniers numéros de la Revue. Advenant la modification, au cours de l'année, des données initiales ou de la méthode de désaisonnalisation, toutes les rectifications seront mises à la disposition des abonnés par l'intermédiaire du "Supplément hebdomadaire de la Revue statistique du Canada" (n° 11-004 au catalogue). Il faut les ajouter à la présente publication, à la place des feuilles périmées. Ainsi, les utilisateurs seront tenus au courant de toutes les données ajoutées ou supprimées dans la Section 1 de la Revue, et auront constamment à leur disposition l'ensemble de la statistique de l'après-guerre.

On trouvera aux pages suivantes des révisions aux séries désaisonnalisées et non désaisonnalisées. Pour la plupart des séries, la revision des données désaisonnalisées résulte de l'introduction des dernières données. En ce qui concerne les exportations et les importations, on a effectué des rectifications afin de supprimer les petites divergences statistiques entre la somme des éléments désaisonnalisés et les totaux publiés, ainsi qu'entre les données mensuelles désaisonnalisées et les données brutes publiées.

Series published in the Supplement are available from CANSIM, the computerized time series data bank of Statistics Canada. All or any part of the data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear above each series and either number may be used in ordering series. For example, T-1-1, Labour Force - Total (not adjusted) may be referenced by either 401.1 (CANSIM identification) or D 750200 (Databank).

For further information direct inquiries to:

General Time Series Staff
Statistics Canada
Ottawa.

Les séries publiées dans ce Supplément peuvent être obtenues de CANSIM, la banque électronique de données chronologiques de Statistique Canada. On peut se procurer l'ensemble des séries ou n'importe quelle partie des séries contenues dans la banque des données sur bande magnétique ou imprimé d'ordinateur. Les indicatifs CANSIM paraissent en haut de chaque série et on peut utiliser l'un ou l'autre nombre pour commander les séries. Par exemple, T-1-1, Main-d'oeuvre - Total (non désaisonnalisé) peut être identifié soit par 401.1 (identification CANSIM) ou par D 750200 (Databank).

(1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- A COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTièrement COMPARABLES À CEUX DES ANNÉES ANTÉRIEURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

NEW DWELLING UNITS COMPLETED, CENTRES 10,000 AND OVER(1) -- LOGEMENTS NEUFS ACHEVÉS, CENTRES DE 10,000 HABITANTS ET PLUS(1)

(1) NEW EXPORT AND IMPORT PRICE INDEX SERIES HAVE BEEN INTRODUCED STARTING WITH 1967 STATISTICS ON 1968 PRICE AND WEIGHT BASIS. BECAUSE OF MAJOR CHANGES IN COMPOSITION, THESE SERIES ARE NOT COMPARABLE WITH PREVIOUSLY PUBLISHED SERIES (1948=100). -- DES NOUVELLES SÉRIES D'INDICE DE PRIX D'EXPORTATIONS ET D'IMPORTATIONS ONT ÉTÉ INTRODUITES À COMPTER DES STATISTIQUES POUR L'ANNÉE 1967 SUR LA BASE DE 1968, COMME BASE DE PRIX ET DE LA PONDERATION. PAR SUITE DE CHANGEMENTS MAJEURS DANS LA COMPOSITION DES INDICES, CES SÉRIES NE SONT PAS COMPARABLES AUX SÉRIES PUBLIÉES ANTÉRIEUREMENT (1948=100).

FOREWORD

AVANT-PROPOS

This twelfth edition of the Annual Supplement to the Canadian Statistical Review gives historical detail for the selected economic indicators appearing in Section 1 of the monthly Review. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1972. They may be best updated by referring to current issues of the Review.

Series published in the Supplement are available from CANSIM, the computerized time series data bank of Statistics Canada. All or any part of the data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

General Time Series Staff

Cette douzième livraison du Supplément annuel de la Revue statistique du Canada décrit en détail l'évolution de certains indicateurs économiques qui figurent à la Section 1 des livraisons mensuelles de la Revue statistique du Canada. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1972. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la Revue statistique du Canada.

Les séries présentées dans la Supplément sont stockées dans le CANSIM, la banque informatique de données chronologiques de Statistique Canada. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données sous forme de bande magnétique ou d'imprimé d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

Balance of International Payments, Total Current Payments	
Balance des paiements internationaux, total paiements courants -----	16
Balance of International Payments, Current Account Balance	
La balance des paiements internationaux, balance au compte courant -----	17
Total Labour Income	
Revenu total du travail -----	18
Wages and Salaries, Manufacturing	
Salaires et traitements, industries manufacturières -----	19
Wages and Salaries, Construction	
Salaires et traitements, bâtiment et travaux publics -----	20
Wages and Salaries, Trade	
Salaires et traitements, commerce -----	21
Wages and Salaries, Services	
Salaires et traitements, services -----	22
Labour Force - Total - Population active -----	23
Labour Force, Employed	
Population active, occupée -----	24
Labour Force, Unemployed	
Population active, en chômage -----	25
Labour Force, Unemployment Rate	
Population active taux de chômage -----	26
Employment Index, Total	
Indice de l'emploi, emploi industriel -----	27
Employment Index, Manufacturing	
Indice de l'emploi, industries manufacturières -----	28
Employment Index, Construction	
Indice de l'emploi, bâtiment et travaux publics -----	29
Employment Index, Trade	
Indice de l'emploi, Commerce -----	30

Employment Index Services	
Indice de l'emploi, services-----	31
Average Hourly Earnings in Manufacturing	
Gains horaires moyen, fabrication totale-----	32
Average Weekly Hours in Manufacturing	
Durée hebdomadaire moyenne, fabrication totale-----	33
Ratio of Manufacturing Inventories Owned to Shipments	
Rapport des stocks possédés aux expéditions-----	34
New Passenger Car Sales	
Ventes de voitures particulières neuves-----	35
Building Permits Total	
Permis de construire total-----	36
New Dwelling Units Started, Centres of 10,000 and Over	
Logements neufs commencés, centres de 10,000 habitants et plus-----	37
Value of Retail Trade, Total All Provinces	
Valeur du commerce de détail, total toutes les provinces-----	38
Value of Retail Trade, Total Ex. Motor Vehicles	
Valeur du commerce de détail, total sans les véhicules automobiles-----	39
Value of Retail Trade, Motor Vehicle Dealers	
Valeur du commerce de détail, marchands d'automobiles-----	40
Merchandise Exports (Including Re-Exports)	
Exportations de marchandises (y compris réexportations)-----	41
Merchandise Imports	
Importations de marchandises-----	42
Rail Revenue Freight Loaded	
Chargements ferroviaires de marchandises payantes-----	43
Three Month Treasury Bill Yield	
Rendement des billets du trésor à trois mois-----	44
Government of Canada Average Bond Yield 10 Years and Over	
Gouvernement Canadien taux des rendements moyens des obligations	
10 ans ou plus-----	44
Consumer Credit (Total Monthly Reporters)	
Crédit à la consommation (total déclarations mensuelles)-----	45
Total Consumer Price Index	
Indice total des prix à la consommation-----	46

Consumer Price Index, Total Ex. Food	
Indice des prix à la consommation, total sans l'alimentation-----	46
Consumer Price Index - Food	
Indice des prix à la consommation - produits alimentaires-----	47
Index of Industrial Common Stocks	
Indice de prix des actions industrielles ordinaires-----	47
Gross Weighted Industrial Selling Price Index	
Indice pondéré brut des prix de vente dans l'industrie-----	48

(1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- À COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTièrement COMPARABLES À CEUX DES ANNÉES ANTÉRIEURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

FOREWORD

This thirteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1973. They may be best updated by referring to current issues of the *Review*.

Series published in the Supplement are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

AVANT-PROPOS

Cette treizième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1973. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

Les séries présentées dans la Supplément sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bande magnétique ou d'imprimé d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

Rapport des stocks possédés aux expéditions	34
Ventes de voitures particulières neuves	35
Permis de construire total	36
Logements neufs commencés, centres de 10,000 habitants et plus	37
Valeur du commerce de détail, total toutes les provinces	38
Valeur du commerce de détail, total sans les véhicules automobiles	39
Valeur du commerce de détail, marchands d'automobiles	40
Exportations de marchandises (y compris les réexportations) . . .	41
Importations de marchandises	42
Chargements ferroviaires de marchandises payantes	43
Rendement des billets du trésor à trois mois	44
Gouvernement Canadien taux des rendements moyens des obligations 10 ans ou plus	44
Crédit à la consommation (total déclarations mensuelles)	45
Indice des prix à la consommation total	46
Indice des prix à la consommation, total sans l'alimentation	46
Indice des prix à la consommation, alimentation	47
Indice des actions industrielles ordinaires	47
Indice pondéré brut des prix de vente dans l'industrie	48

Note: In the tables, components may not necessarily sum to totals because of rounding.

Nota: Dans ces tableaux, les chiffres ayant été arrondis, leur somme peut ne pas correspondre aux totaux indiqués.

(1) Starting in January 1962, the data are not entirely comparable with earlier years because more centres are included and because of the expansion of the boundaries of metropolitan areas. Prior to 1962, data relate to centres with a population of 5,000 and over.

(1) A compter de janvier 1962, les chiffres ne sont pas entièrement comparables à ceux des années antérieures en raison du plus grand nombre de centres et de l'expansion des limites des zones métropolitaines. Avant 1962, les données s'appliquent aux centres de 5,000 et plus de population.

FOREWORD

This thirteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1973. They may be best updated by referring to current issues of the *Review*.

Series published in the Supplement are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

AVANT-PROPOS

Cette treizième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1973. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

Les séries présentées dans la Supplément sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bande magnétique ou d'imprimé d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

- (1) Starting in January 1962, the data are not entirely comparable with earlier years because more centres are included and because of the expansion of the boundaries of metropolitan areas. Prior to 1962, data relate to centres with a population of 5,000 and over.
- (1) A compter de janvier 1962, les chiffres ne sont pas entièrement comparables à ceux des années antérieures en raison du plus grand nombre de centres et de l'expansion des limites des zones métropolitaines. Avant 1962, les données s'appliquent aux centres de 5,000 et plus de population.

FOREWORD

This fourteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1974. They may be best updated by referring to current issues of the *Review*.

Series published in the Supplement are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

Canadian Statistical Review,
R. H. Coats Tower, 23 M,
Statistics Canada,
Ottawa, K1A 0T6.

AVANT-PROPOS

Cette quatorzième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1974. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

Les séries présentées dans la *Supplément* sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bande magnétique ou d'imprimé d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

(1) Starting in January 1962, the data are not entirely comparable with earlier years because more centres are included and because of the expansion of the boundaries of metropolitan areas. Prior to 1962, data relate to centres with a population of 5,000 and over.

(1) À compter de janvier 1962, les chiffres ne sont pas entièrement comparables à ceux des années antérieures en raison du plus grand nombre de centres et de l'expansion des limites des zones métropolitaines. Avant 1962, les données s'appliquent aux centres de 5,000 et plus de population.

FOREWORD

This fifteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1975. They may be best updated by referring to current issues of the *Review*.

Series published in the Supplement are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

Canadian Statistical Review,

Ottawa, K1A 0T6.

AVANT-PROPOS

Cette quinzième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1975. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

Les séries présentées dans la Supplément sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bande magnétique ou d'imprimé d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

(1) Starting with January 1970, the sales finance companies component of consumer credit has been changed by the transfer of passenger cars financed for commercial purpose from consumer goods to commercial goods.

(1) À partir de janvier 1970 la composante société de financement des ventes du crédit à la consommation a été modifiée à cause du transfert du financement des véhicules particuliers utilisés à des fins commerciales, du poste biens de consommation au poste biens commerciaux.

FOREWORD

This sixteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1976. They may be best updated by referring to current issues of the *Review*.

Series published in the *Supplement* are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tapes or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to:

Editor's Note

The CSR staff is always examining new ways of presenting information to its readers. Please do not hesitate to inform us of your needs and to offer us your suggestions.

AVANT-PROPOS

Cette seizième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées, aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1976. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

Les séries présentées dans le *Supplément* sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bandes magnétiques ou d'imprimés d'ordinateur. Les indicatifs du CANSIM accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à:

Le personnel de la Revue est toujours à la recherche de nouveaux modes de présentation de l'information à ses lecteurs. N'hésitez pas à nous faire connaître vos besoins et à nous présenter vos suggestions.

Note to Users

Data in this publication were retrieved from CANSIM (Registered Trade Mark of Statistics Canada for its Canadian Socio-Economic Information Management System) and processed to create a photo-ready copy from which this publication was produced. CANSIM is the Statistics Canada computerized data bank; series published in the *Supplement* (as well as other data) are available on computer printouts, cards, tape or directly via terminal.

The seasonal adjustment method applied to economic time series at Statistics Canada is a computerized ratio-to-moving average method. The standard computer program used in Statistics Canada is the U.S. Bureau of the Census Method II, X-11 variant. Seasonal adjustment removes the effect of repetitive intra-year variations resulting from normal differences in weather, holidays with invariable dates, or other events which repeat with the same timing.

While seasonal adjustment allows a much better look at the underlying trend of a series, the adjusted series will contain irregular fluctuations. Small changes between months in the adjusted series may simply be erratic movements and, to obtain a clearer idea of the underlying trend, users should examine the adjusted series over a number of months. The MCD, or Months for Cyclical Dominance, in a table containing seasonally adjusted series, indicates the smallest span of months for which the average percent change without regard to sign in the trend cycle is greater than that in the irregular factor. For the smoothest series in MCD it is one, for the most erratic series it is six. Applying a moving average of the period equal to the MCD tends to smooth irregular movements which may obscure the underlying trend.

Note aux lecteurs

Les données qui apparaissent dans la Revue statistique du Canada ont été extraites du CANSIM (marque déposée de Statistique Canada pour son "Système canadien d'information socio-économique") et traitées pour donner une copie destinée à la photocomposition et à partir de laquelle cette publication est produite. CANSIM est la banque informatique de données de Statistique Canada. Les séries qui se trouvent dans le *Supplément* (ainsi que d'autres données) sont disponibles sur imprimés d'ordinateur, cartes, bandes ou par accès direct au terminal.

Le procédé utilisé pour la désaisonnalisation des séries chronologiques à Statistique Canada fait appel à l'application informatique d'un rapport à la moyenne mobile. Le programme informatique standard utilisé à Statistique Canada est le programme dit *Method II, X-11 variant* du U.S. Bureau of Census. La désaisonnalisation supprime les effets des variations répétitives qui se produisent dans l'année et sont imputables à l'évolution normale du climat, aux congés fixes, ou à d'autres événements qui se répètent à des intervalles réguliers.

Bien que la désaisonnalisation permette de mettre bien mieux en évidence la tendance fondamentale d'une série, les séries désaisonnalisées n'en contiennent pas moins des fluctuations irrégulières. De légères variations d'un mois à l'autre dans les séries désaisonnalisées peuvent être de simples mouvements irréguliers, et pour avoir une meilleure idée de la tendance fondamentale, les utilisateurs doivent examiner les séries désaisonnalisées d'un certain nombre de mois. Le M.D.C., ou mois à dominance cyclique, dans un tableau contenant des séries désaisonnalisées, donne le plus petit nombre de mois pour lesquels le taux de variation moyen compte non tenu du signe de la tendance générale, est supérieur à celui du facteur irrégulier. Dans le cas de la série la plus lisse possible, le M.D.C. est égal à un; dans celui de la série la plus irrégulière, il est égal à six. L'application d'une moyenne mobile dont la période est égale au M.D.C. tend à lisser les mouvements irréguliers pouvant dissimuler la tendance fondamentale.
